

 **BEARINGS**

From turning to finishing – we do more to improve your business.

FLUIDS DO A LOT – BUT NOT ENOUGH.

Because when it comes to improving your overall business – and getting the most from your resources – you need an approach that goes beyond product. You need the expertise and experience of a proven leader.

That's where Quaker comes in. Trusted around the world as chemists, engineers and technical experts, we're a valuable partner in not only reducing costs but also improving your operations.

Quaker provides a complete package of value-added fluids for everything from machining and grinding to cleaning and corrosion prevention. Supported by our worldwide research, technical expertise and hands-on experience, you will see a maximum return in productivity, quality and profitability.

From our highly trained team behind **Quaker Chemical Management Services (QCMSSM)** to our field staff of process engineers, there's always someone from Quaker available to support you with customized support services at the local level.

Whether it's machining, grinding, cleaning or corrosion prevention, Quaker has innovative, integrated process solutions and superior service to optimize your operations, increase profitability and guarantee success.

KEY BENEFITS OF CHOOSING QUAKER SOLUTIONS FOR YOUR BEARING OPERATIONS

- » Application Support – We work with your teams for the best results
- » Improve Surface Finish – Reduce machine downtime, rework and rejects
